- Focus will be on end of lifecycle activities for special accounts
 - Reclassification, Transfer to the Trust Fund, Closeout
- Will review accomplishments vs. plans for FY 2009 and FY 2010 reclassifications and transfers to the Trust Fund
- Goal to complete review by end of calendar year

Annual Deobligation Recertification Guidance Background

- FY 2009 Deobligation Recertification Guidance
 - A policy specific to the recertification of special account reclassifications was introduced in the FY 2009 guidance
 - Acknowledges the additional work required to effectuate reclassifications
- FY 2010 Deobligation Recertification Guidance
 - Issued December 2009
 - Did not change the FY 2009 policy
 - States policy will be re-evaluated for FY 2011

SA Reclassification Process

1. Regions draft a reclassification justification memo
2. Headquarters reviews the memo
3. Regions address comments and finalize the memo
4. Regions request reimbursable authority and do KV transaction
5. RPIOs recertify resources once KV transaction completed

Challenges:

- The higher the dollar value reclassified, the more lines of accounting required to swap funds
- Older original expenditures are more difficult to find (i.e., pre-IFMS transactions) and more difficult to crosswalk to the current budget structure

Proposals for SA Reclassifications

- Proposals for the SF Remedial & Removal Programs only:
 - Option 1 (Status Quo)
 - Up to \$1 M to the RPIO
 - Amount greater than \$1M, 75% to the National Pool and 25% to the Region
 - Allows a waiver on a case-by-case basis

Exemption 5 - Deliberative Process

- Policy of 100% back to the RPIO where the obligation originated for all other programs (e.g., enforcement, federal facilities) remain unchanged
